

C#/SQL DEVELOPER

TECHNOLOGIES CYSKA is an engineering firm that offers several services in fields of application as varied as transportation, packaging, lighting, mining, personal safety, refrigeration, aerospace, robotics and artificial intelligence. Our team is comprised of more than 60 professionals dedicated to project development and product or web application design.

We are looking for a talented candidate in software development who is ready to take on new challenges and many responsibilities in a growing business. The candidate will participate, as part of an agile team, in development tasks related to desktop or client-server applications, with C # code and Windows platform SQL databases.

If you like teamwork and challenges, we'd love to know you!

Your responsibilities:

You will be a member of an Agile team with the following responsibilities, with daily tasks divided according to each member's strengths:

- Analysis, programming and delivery of new features, or enhanced features, in interfaces (native or web) to access services on remote servers.
- Improve existing or developing interfaces
- Design and development of new applications as part of a distributed data system, in C # with SQL.

The requirements:

- Bachelor's degree in computer engineering, computer science or equivalent experience;
- 4 years of experience in programming web interfaces (GUI) on Windows or Linux;
- 2 years of experience in C # and SQL
- Working knowledge of Javascript

- Basic knowledge of client-server architectures, and databases
- Ability to solve simple problems on server modules
- 4 years of experience in software development
- Interest or experience with the Agile method
- Available to work in the downtown Montreal area
- Bilingual (French and English)

Additional qualifications desirable:

- Experience in Java or C ++ object-oriented development
- VisualBasic development experience
- Experience in understanding and formalizing software requirements
- Ability to work in an environment using CMMI (or equivalent) software development processes

This is a full-time permanent position with benefits, competitive salaries, flexible hours and group insurance.
