

Salesforce developer

TECHNOLOGIES CYSKA is an engineering firm that offers several services in engineering, systems, software development, design of electronic systems and computers. Our fields of application are as varied as transportation, aerospace, robotics, artificial intelligence, security, mining, refrigeration, packaging and lighting. Our team is comprised of more than 60 professionals dedicated to project development and product or high technology design.

We are currently looking for a talented Salesforce development candidate for the manufacturing industry. If you like challenges and dream of more flexibility in your work life, we would love to get to know you.

Responsibilities:

- Develop, design and implement products on the Salesforce/Force.com platform to meet clients' needs and offer creative solutions;
- Take part in, plan, influence and document the product definition, its architecture, interfaces and performance;
- Create, develop and customize applications using Apex programming language, Salesforce configuration interface, Visualforce and Lightning;
- Write efficient code to execute simple and complex user tasks for the manufacturing industry;
- Test, validate and process anomalies related to Salesforce;
- Prepare, validate and deploy change set to Salesforce Orgs.

Requirements:

- Bachelor's in computer or software engineering, or equivalent experience;
- Minimum of five (5) years developing client relation management software, with at least two years working specifically on Salesforce/Force.com;
- Experience with the complete Salesforce.com development cycle;
- Experience with Apex unit testing development and execution;
- Experience with Visual Studio Code using Forcescode extension or equivalent;

Assets:

- Certification as a Salesforce developer;
- Ongoing training with Salesforce using Trailhead;
- Knowledge of Git source control system;
- Experience with the Agile method;
- Experience developing Lightning Web components;
- Experience using the Salesforce DX Tools;
- Knowledge of French and English (spoken and written);

This is a permanent, full time position with social benefits, a competitive salary, flexible schedules and a collective insurance.
